Chesapeake, VA 23320**

1. Obtain a copy of Oracle Products for Windows v 7.3 for installation. This is a licensed product and must be obtained prior to installation.
2. Insert the Oracle Products for Windows CD-ROM into the CD-ROM drive. A dialog box will appear to request whether you wish to install Oracle Products.
3. Click on Yes. You may be prompted to select a Language Preference otherwise skip to step 7.
4. Select English. Click on Ok. You may be prompted to enter registration information.
5. Enter the appropriate licensing information and click on OK. You may be prompted to enter the Oracle Products Installation directory.
6. Enter the desired installation directory and click on OK.
7. From the Products available window double mouse click on “+{Selective Product Install}” to expand the list.
8. If “Oracle Installer 3.1.4.1.2E” appears in the Products installed window skip to step 10.
9. Single mouse click on “Oracle Installer 3.1.4.1.2E” in the Products available window and click on the Install button.
10. Single mouse click on “Oracle Documentation 7.3.2.2.0” in the Products available window and select the Install button.
11. Select the Exit button.
12. Insert the segment media into the floppy drive.
13. Launch the DII Installer from the System Administration program folder.
14. Select the floppy drive as the source.
15. Select Read TOC to read the table of contents of the media.
16. Select the “Oracle Documentation” segment.
17. Select Install.
18. The segment will install and can be viewed in the Currently Installed Segments list.
19. Select the Exit button.
20. Select Yes to confirm exit of the DII Installer.
